

2025 FUNDING GUIDE

Fueling Innovation: Your EdTech Grants Guide

Technology funding can be one of the biggest roadblocks to getting your program off the ground — and recent federal action putting the E-Rate funding for Wi-Fi hotspots at risk creates new urgency for school districts, libraries, and other organizations to identify alternative resources.

In this guide, Kajeet provides a brief overview of funding opportunities available both nationally and by state to help you jump-start or sustain your technology initiatives. Together, we'll confidently move forward into a more equitably connected future.

Explore the opportunities available to help you power what's next in education.

About Kajeet

For over 20 years, Kajeet has been mission-focused on bridging the digital divide.

Our wireless connectivity solutions for education currently help over 1,500 school districts and libraries nationwide bridge the digital divide.

Through Kajeet Wi-Fi hotspots, LTE-embedded laptops and tablets, school bus Wi-Fi, private wireless network solutions for campuses, and our award-winning Sentinel® administrator platform to easily manage it all, we help ensure that your students or patrons have the access they need — when and where they need it.

2025 FUNDING GUIDE

Nationally Available Grants

Below is a curated list of nationally available grants designed to help educators access the tools, technology, and infrastructure needed to drive student success.

ABOUT KAJEET

Kajeet provides optimized IoT connectivity, software and hardware products that deliver safe, reliable, and controlled internet connectivity to nearly 3,000 businesses, schools and districts, state and local governments, and IoT solution providers. Kajeet's Private Network solutions simplify private wireless to allow customers to design, install and manage their own private wireless networks. Kajeet is the only managed IoT connectivity services provider in the industry to offer Sentinel®, a scalable IoT management platform that includes visibility into real-time data usage, policy control management, custom content filters for added security and multi-network flexibility. Kajeet is available for hybrid and multi-network access across all major North American wireless networks, globally with coverage in 173 countries, and on multiple licensed and unlicensed networks. Kajeet holds 43 U.S. patents in mobile technologies.
